

# Untitled

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
## Warning: package 'xtable' was built under R version 3.2.3
```

```
% latex table generated in R 3.2.2 by xtable 1.8-2 package % Thu Oct 6 15:08:59 2016
```

	Estimate	Std. Error	t value	Pr(> t )
(Intercept)	7.0326	0.4578	15.36	0.0000
TV	0.0475	0.0027	17.67	0.0000

```
% latex table generated in R 3.2.2 by xtable 1.8-2 package % Thu Oct 6 15:08:59 2016
```

	Quantity	Value
1	Residual Standard Error	3.26
2	R2	0.61
3	F-Statistic	312.14

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
